

## **APPLICATION TOOL FOR CONVERTING EMPLOYER’S RETURN FROM ASCII FILE TO XML FILE.**

### **1. Short description of implementation.**

The purpose of this tool is to convert the (existing) ascii file of Employer’s return to an XML file, suitable to be used for return submission via TAXISNET through page “SUBMIT XML FILE” for File Type: Employer’s return (I.R.7A).

### **2. Prerequisites.**

To run this tool you should first preinstall the Java Runtime Enviroment (jre) version 5 or later on your P.C.

#### **NOTE:**

Instructions for downloading Java Runtime Environment are given in chapter 4.

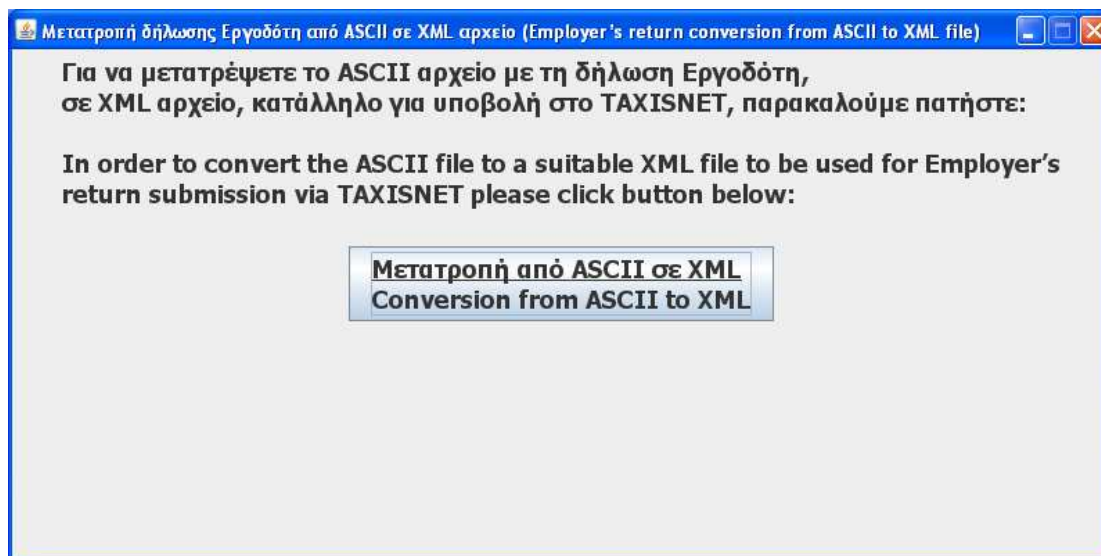

### **3. Operating Instructions.**

On clicking link “USE APPLICATION” a page with the next content will appear:

#### **Ενεργοποίηση εφαρμογής μετατροπής / Implementation of conversion tool**

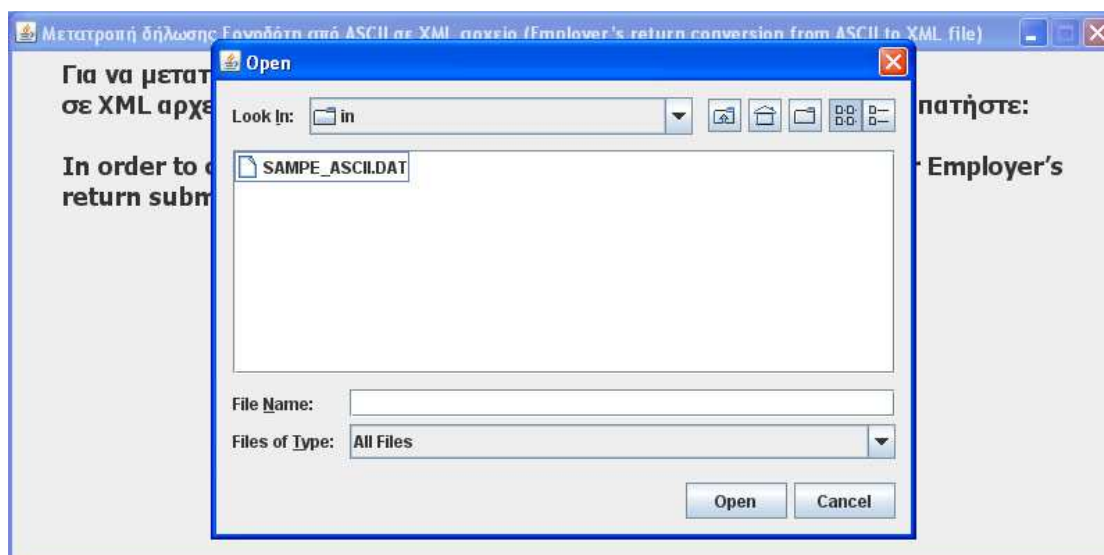

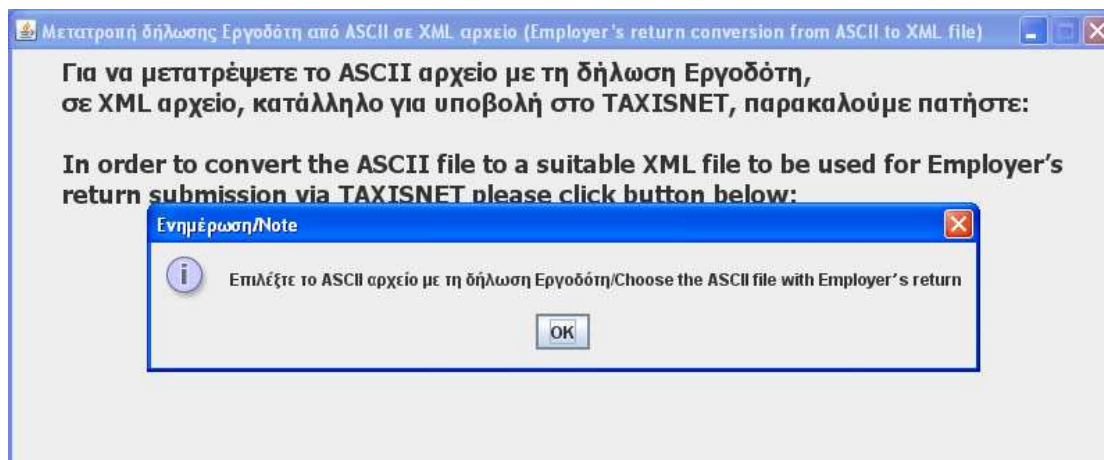

On clicking the “Launch” button a security warning window will appear. After you click on “run” the next window will appear:

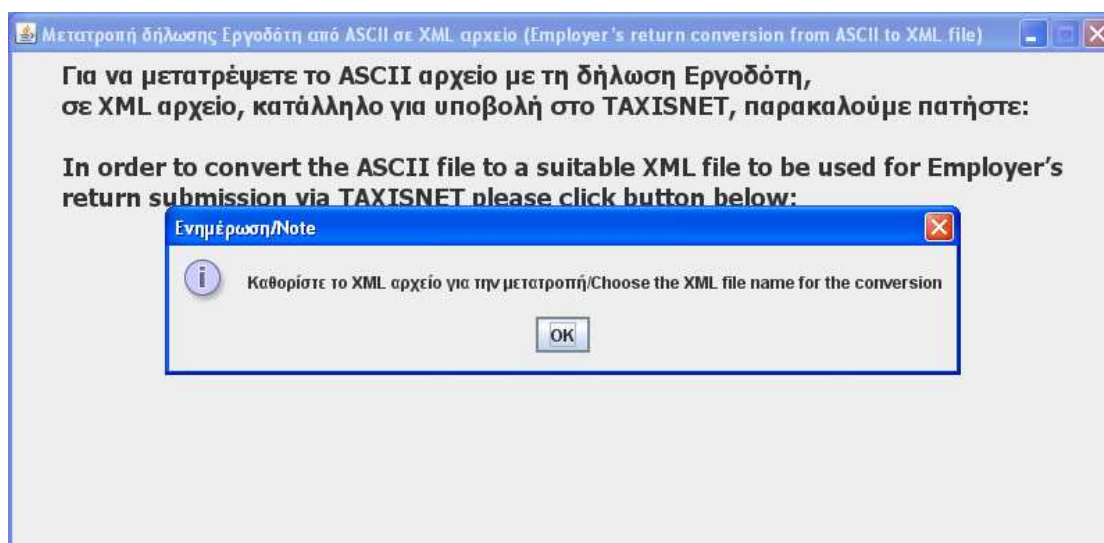

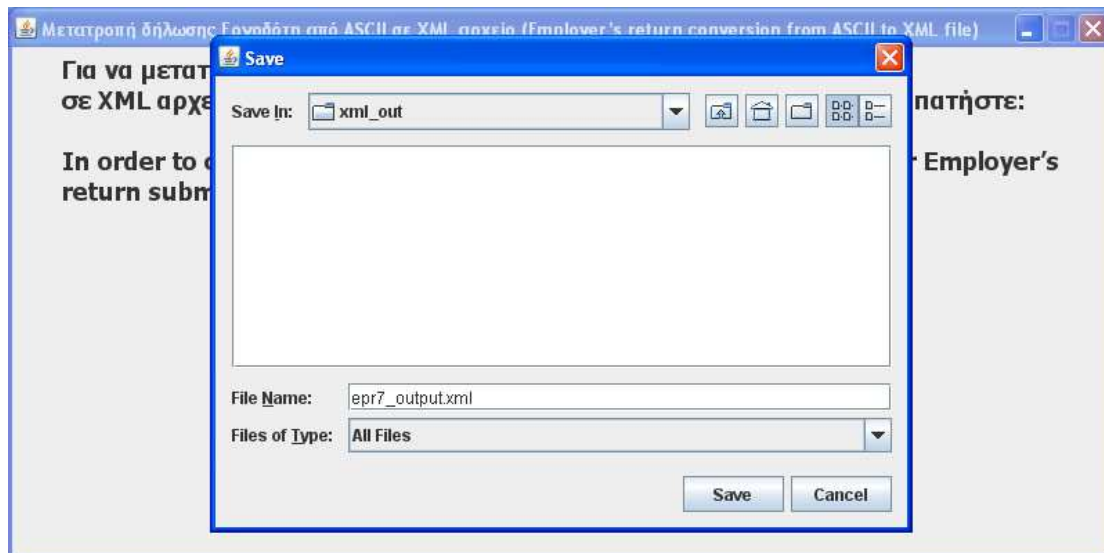

After that, you should:

- a) Choose the ascii file to be converted.

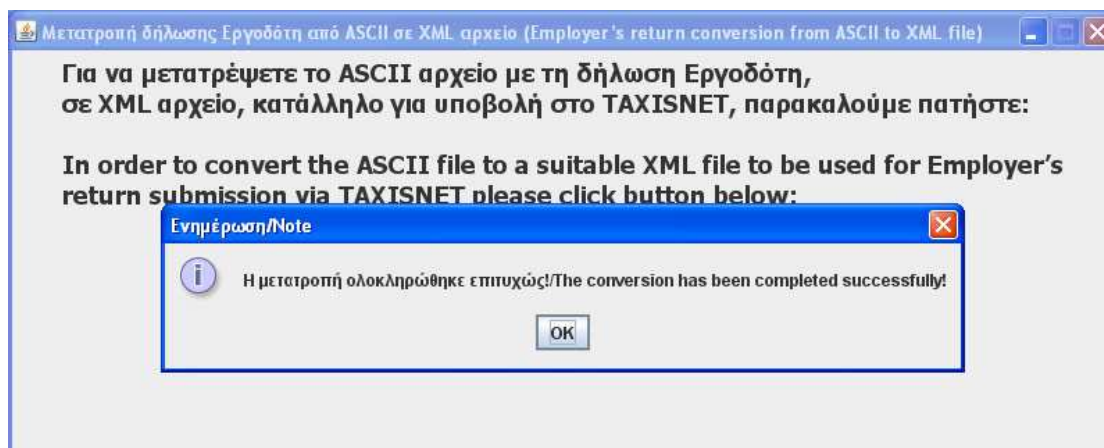

- b) Define the name of the exported XML file which must end in **.xml**

After you have defined the name of the XML file (on this example: epr7\_output.xml), and clicked “save” the procedure comes to end with the next window:

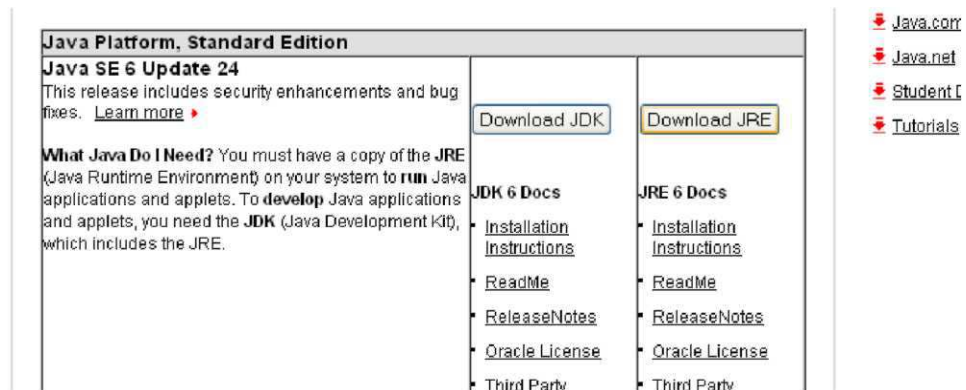

The xml file (in above example: epr7\_output.xml), is suitable to be submitted via TAXISNET provided that its size is not more than 3MB (general restriction for the security and good performance of the TAXISnet system).

#### 4. Instructions for Java jre downloading.

To run this application, the user should first have preinstalled the Java Runtime Environment (jre) version 5 or later on the P.C. If not, the user should download the latest version of Java Runtime Environment from Oracle site as mentioned below:

1. The user should visit the under mentioned site:  
<http://www.oracle.com/technetwork/java/javase/downloads/index.html>
2. On the screen, the user must click “Download jre”

3. On next screen, the user chooses the appropriate platform (e.g. Windows) as well as the checkbox "I agree..." and clicks on "Continue".

SDN Home > Download Center >

## Java SE Runtime Environment 6u24

Provide Information, then Continue to Download

Select Platform and Language for your download:

Platform:  ▼

Language: Multi-language

I agree to the [Java SE Runtime Environment 6u24 with JavaFX License Agreement](#).

**Continue »**

4. On the next screen clicks on the link for offline installation

## Download Java SE Runtime Environment 6u24 for Windows, Multi-language

### Download Information and Files

**Instructions:** Click the file name to start the download.

#### Available Files

File Description and Name	Size
Windows Offline Installation <a href="#">jre-6u24-windows-i586.exe</a>	15.75 MB

#### Optional Files

File Description and Name	Size
Windows Online Installation <a href="#">jre-6u24-windows-i586-iftw.exe</a>	0.84 MB
Windows (Optional) Installation	0.04 MB

5. On the pop up window chooses “Save”.

6. The user saves the file jre (exe) on the local disk (commonly on desktop)

7. After that he runs the file jre (exe) in order to be installed on the PC.
